## **SPECIALIZING IN LINING-OUT STOCK**

We are very proud of our lining-out stock. With us, the growing of top-quality liners is a specialized business—not just a sideline. From the beginning of our nursery some ten years ago we have specialized in this field, and we now feel that we can supply you with some of the best liners to be found anywhere.

Our Dowfume MC2 fumigated beds have a high peat moss content, are all under sprinkler system, and we maintain a carefully supervised program of fertilizing and spraying. These factors combine to give you good healthy plants with wonderful fibrous root systems, strong stems and branches, and rich-green foliage.

We invite you to compare our liners with any others you may have been using.

With the high cost of transportation on finished stock, we urge you to consider the savings you will effect by growing your own—from our fine liners—either in containers or in the field.

The demand for container-grown stock is steadily increasing. Place your order with us early and be sure of having nice stock on hand for next season's sales.

## AZALEA LINERS

We offer for early Spring 1960 shipment, beginning about April 1, Azalea liners that are well-branched, compact plants with heavy root systems. These have been grown in beds with a heavy peat content and have been sheared several times to make them bushy. We ship thousands of these liners each spring to many satisfied customers, and we urge you to place your order well in advance of the shipping season on these, so that we may reserve some of them for you.

Container-grown stock is getting more popular each year — in fact, advance sales this season have been so heavy, we have had to omit from the above list many items that we grow in containers. We believe you would find it profitable to buy some of our fine liners and grow them yourself in containers.

## RARE CAMELLIA GRAFTS

These are one-year plants in one-gallon containers, except as noted. Prices are F.O.B. our nursery for the plants uncrated. Where crating is necessary, packing charge will be 10c additional per can.
